THIS IS UNEVALUATED INFORMATION

25X1

1. A hard surface, all weather road [#924] runs from Fagaras westward to Sibiu and also from Fagaras eastward to Brasov. The road has a good solid foundation and is considered to be a first class highway. The road is over two lanes wide and runs through a valley. It was designed for heavy usage and is asphalt covered.
2. A number of loose surface, dry weather dirt roads [#935] run in the vicinity of Feldiora, Arpasul de Jos, Besimbac and Voila. The dirt roads are approximately one lane in width. The dirt roads have a natural stone and gravel foundation. The dirt roads occasionally are able to bear heavy traffic.
3. Whenever the dirt roads become potholed or deeply rutted because of rains it is easier for a traveler to get off the dirt roads and travel on the fields. The farmers and villagers perform maintenance work on the roads using old fashioned equipment.
4. A number of cart tracks [#944] run in the same vicinity as the dirt roads [#935]. The cart tracks are approximately one lane in width. The cart tracks occasionally are capable of bearing heavy usage. The cart tracks are used for short cuts and for inter-village communications.

INFORMATION REPORT INFORMATION REPORT

NOFORN **NO DISSEM ABROAD** **LIMITED**
LIMITED: Dissemination limited to full-time employees of CIA, AEC and FBI; and, within State and Defense, to the intelligence components, other offices producing NIS elements, and higher echelons with their immediate supporting staffs. Not to be disseminated to consultants, external projects or reserve personnel on short term active duty (excepting individuals who are normally full-time employees of CIA, AEC, FBI, State or Defense) unless the information is of direct use to the intelligence community. Information to be controlled through the Joint Chief of Staff for Central Reference, CIA.
